## OVERVIEW

---

I am a full-stack creative developer, and can be helpful in most project stages from concept to production. I love to surround myself with smart people and learn as much as I can about every aspect of design and technology.

## TIMELINE

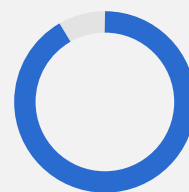

---

- 2005 ● Started freelance web design for a musical instrument inventor
- 2011 ● Graduated high school, started work as a full-stack developer with **Czar Theory**
- 2011 ● Began studying computer science at Utah State Univerisy
- 2012 ● Started working as creative developer for digital creative agency, **HQ**
- 2012 ● Dropped out of university and left on church service mission to New York
- 2014 ● Resumed full-time work as a lead creative developer with **HQ**
- 2016 ● Created startup for a static web hosting platform, **Zab**
- 2017 ● Resumed freelance development after Zab failed

## EXPERIENCE

---

**12** years of professional web development
